

# THE WORLD'S BEST SUNDECK COATING

# FLEXSTONE

[WWW.FLEXSTONES.CA](http://WWW.FLEXSTONES.CA)

Flexstone is the world's most durable waterproof deck & roof coating. Now with full CCMC approvals, homeowners all across Canada have the opportunity to have our luxurious and ridiculously long lasting membrane applied on their sun decks, walkways, garage floors, and even flat roofs.

## FULLY CCMC APPROVED

Flexstone has all the Canadian CCMC approvals for applications on sun decks and flat roofs.

## UNLIMITED LIFESPAN

Flexstone lasts decades on a sundeck and will last three times longer than traditional vinyl membranes.

## SEAMLESS AND LUXURIOUS

Flexstone is seamless, tear & fade resistant. Our finishes look fantastic and are incredibly durable.

## ECO-FRIENDLY & ODOURLESS

Our eco-friendly and unique water-catalyzed urethane (WCU) coating is applicable over existing membranes which saves you money and keeps tons of debris out of our landfills.

## INTERCHANGEABLE FINISHES

Any time in the future, you can upgrade your finish or change the chip-colour of your deck for a nominal price.

## ENDLESS APPLICATION OPTIONS

Applications include: sun decks, garage floors, flat roofs, over or under tiles, over old vinyl or fiberglass, on pool-surrounds, ship decks, industrial floors, under deck boards, & even over torch-on rubber roofing.

Choosing the right waterproof membrane for your sundeck just got a whole lot easier. Finally, a seamless deck finish that retains it's unrivalled durability and stunning appearance for decades.

Don't be embarrassed by rotten deck boards, peeling faded vinyl, or flaking rolled-on liquid products anymore. Flexstone is rugged enough to withstand harsh Canadian winters and luxurious enough to impress anyone.
